Custom Hose Fabrication

Our team custom makes your hose assembly based on your specific application and needs. With years of experience, our certified connector technicians can look at your old hose assemblies and determine exactly what type of hose and fittings will work best for your application. Our large selection of in-stock parts allows us to get your hose made on the spot so you can save time and get you back to work.

Cross adds tangible value for you:

Reduce Risk - Feel confident that your hose assemblies are made properly so they don't fail prematurely in the field endangering you or your team.

Improve efficiency - Don't waste time got to multiple locations to get the parts you need. Our team has a large selection and the know-how to get you up and running quickly.

Raise Quality - We only sell the highest quality parts and never mix hose manufacturer parts, this means that the parts going onto your equipment are high quality and reliable.
