

Cross Hose & Fittings offers superior quality hose and fittings for your brewery, with fast same-day service.

Cross Hose & Fittings has what you need to keep your brewery flowing!

Products

You can't afford downtime, so you need the highest quality brew hose. We keep what you need in stock so you can get up and running fast.

- Brew hose (size 1"-2" in-stock, up to 4" available by special order)
- Stainless steel sanitary fittings, adapters, and clamps
- Brass and composite push-to-connect fittings
- Waste discharge hose for waste disposal
- Center punch tool that allows you to make repairs yourself when needed
- Washdown hose ($\frac{3}{4}$ " and $\frac{5}{8}$ " diameter) with solid brass fittings and ball valves
- Wide variety of brass washdown nozzles in stock including tapered and pistol grip
- Transair aluminum & stainless steel tubing for air and nitrogen
- Pneumatic tubing and push-to-connect fittings for general and food-grade applications

Service

Our hose assembly technicians are the best in the business. Trust us with your brew hose needs.

- Custom hose assembly up to 100 feet with **same-day turnaround**
- In-house hose repair with crimped or certified clamped stainless steel fittings
- On-site consultation and specification of hose needs with a technical expert
- Personalized consulting services for automating your manufacturing process

Cross adds tangible value for you:

Reduce Risk - We minimize your risk of downtime by using only the highest quality hose and fittings for our custom brew hose assemblies. When something does break, we get you back up and running quickly with same day repair and assembly service.

Improve Efficiency - Don't waste unnecessary time on hose repair when the Cross experts can handle it for you. By trusting our hose experts, you are able to focus on what you do best - brewing great beer!

Raise Quality - Every hose we make is capped with a protective cover to ensure it is safe and sanitary for your brewing process.
